

**APPLYING HIGH QUALITY COATINGS TO
FERROUS METALS AND ALUMINUM FOR
THE MILITARY INDUSTRY**

QUALITY CARC APPLICATION

- **Superior Service**
- **On Time Delivery**

OUR MISSION:

Boss is a family owned and operated business with more than 45 years of industry experience and reputation.

We strive daily to add value for our customers by focusing on lean total quality. As part of your supplier team we assure you will meet your deadlines on time, every time with provable quality and competitive pricing.

QUALITY POLICY

The goal of BOSS is to be the leader in the application of high quality coatings that provide the best value for our customers and contribute to our mutual success. We will accomplish this by providing products and services that meet or exceed the expectations of our customers through our total commitment to continuous improvement in everything we do.

SPQRC – THE WAY WE DO BUSINESS AT BOSS

Safety: Our overriding priority

People: Our people are our number one asset. Boss fosters a learning environment where our people are provided tools and information to do their jobs correctly the first time.

Quality: Process based first time quality is the underpinning principle of ISO9001:2008 compliance. Based upon 'hearing the voice of our customers', our total quality management system comprehends all vendor specific requirements such as SSPC, MIL-DTL-53072C, TT-C-490E, MIL-STD-130 Part Marking, etc., and ensures that our customers' products are processed in accordance with these requirements.

Responsiveness: Lean agile environment with fast response time committed to continually improve in everything we do. Capable of (2) shifts, (7) days a week.

Cost: By focusing on the preceding principles our costs will be driven ever lower. We conduct SPQRC meetings daily on both shop floor and management levels to ensure these principles drive how we conduct our day to day business at BOSS.

Commitment to 100% customer service and satisfaction. We are capable of operating two shifts, seven days a week, as needed.
